## SUMMARY

---

Experienced Frontend Developer specializing in React.js with a proven track record of leading software projects in the governmental and educational sectors. Skilled in utilizing modern software architectures and diverse database technologies to optimize system functionality.

## EXPERIENCE

---

### Front-End Developer at Code Flow

( Jan 2025 – Present, Remote )

Working remotely as a Front-End Developer using React.js and Next.js to build modern, responsive web applications. Responsible for developing reusable components, improving performance, implementing responsive designs, and collaborating with designers and backend engineers to deliver high-quality user experiences.

### Front-End Developer Intern at Azzrk Company

( Sep 2024, On-site )

Completed hands-on training in web development, working from the company office and contributing to internal projects. Gained practical experience in building UI components, debugging cross-browser issues, and following team workflows and version control practices.

### Frontend Training – ITI (Information Technology Institute)

( Jul 2025 – Aug 2025, Remote )

Completed a one-month intensive training focused on React.js, HTML, CSS, and Bootstrap. Gained hands-on experience building responsive user interfaces, implementing component-based architectures, and applying best practices for accessibility and performance.

### Frontend Trainee – Digital Egypt Pioneers Initiative (DEPI)

( Jul 2025 – Present, Remote )

Enrolled in the third round of the Digital Egypt Pioneers Initiative (DEPI) under the React.js track. Undergoing advanced training in React.js, HTML, CSS, and JavaScript, with a strong focus on building scalable and responsive web applications using modern frontend practices.

## SKILLS

---

- **Programming:** C++, JavaScript, TypeScript
- **Databases:** MongoDB, SQL Server
- **Frameworks:** ReactJS, NextJS, NodeJS, TailwindCSS, Bootstrap, React Native
- **DevOps:** Git, GitHub
- **General:** Problem Solving, OOP, Design Patterns, HTML5, CSS3

## PROJECTS

---

### ▪ Q-Prep — Full-Stack Web Application

Built a full-stack web platform for coding interview preparation with a team. Features include quizzes, an AI chatbot for guidance, and an admin dashboard. Contributed as a Frontend Developer using React.js and Tailwind CSS, implementing interactive quiz UIs, authentication flows, and responsive layouts.

### ▪ Arab Italian Company | Freight Forwarding Website (Freelance)

Built a professional website to manage freight forwarding operations efficiently. Implemented sections for service listings, tracking, contact forms, and an admin area for operations management.

### ▪ Hospital Management System

Developed a complete hospital management system using React.js, Tailwind CSS, Node.js, Express, and MongoDB. Implemented patient booking flows, doctor schedules, and an admin dashboard for managing appointments, doctors, and patients from anywhere. Integrated i18next for multi-language support, enabling seamless translation and accessibility across the platform.

### ▪ Full-Stack E-commerce

Built a full-stack e-commerce platform with React.js, Node.js, and Tailwind CSS, featuring product management and a responsive user interface. Included an admin dashboard for managing users, orders, and products with full authentication and authorization.

## EDUCATION

---

Bachelor of Computer Science, Mansoura University (Oct 2022 – Expected 2026)

Major: Information Technology; Focus: Computers and Artificial Intelligence

## LANGUAGES

---

- Arabic — Native/Bilingual
- English — Professional Working Proficiency
